Inventory Chapter Reviews (February-May)

Planning Board Inventory Chapter Review Expectations

- PB members will receive draft inventory chapters approx. 10 days prior to upcoming PB Meeting
- Intention is for high level discussion about the chapters (i.e., highlights, themes, etc.)
- Are they complete and accurate inventories?
- Not the intention to discuss potential grammatical issues/wordsmithing at the meeting, but there will be time for this outside of PB Meetings
- Start thinking about specific stakeholders/organizations who would be interested, or are experts, in the content

Inventory Chapter Review Logistics

Other Logistics

- Post Online/Town Hall for Public Review – 1 week after PB Review

Inventory Chapter Reviews

- **State requirements guide the framework/information in inventory chapter drafts**
- **State/census data won't always match up with current conditions in the community, but it's a good snapshot in time and baseline for planning purposes**
